Website Development Quotation

Business Website | Finalised Pages

REVISION 2

PREPARED FOR

Eventina Organisers

DATE

8 October 2026

Dear Eventina Organisers team,

Thank you for confirming the pages you want on your website. This is **Revision 2** of our quotation. It lists the finalised pages, the confirmed website price, and explains in simple words how the work, content, payments and extra services will be handled. A separate page at the end shows exactly what has changed since Revision 1.

PRICE AT A GLANCE

Item	What it means	Cost
Business Website	13 finalised pages (see section 1)	**₹15,000**
Analytics Setup	Tracking set up to count your website visitors	**₹3,000**
Admin Dashboard	Private control panel for your team	Separate quotation
Basic SEO (search visibility)	Helps people find you on search engines	**Included**
30 Days Support After Launch	We fix errors in our work for free	**Included**
Domain (website name)	You have already purchased it	**Already done**
Hosting	Where your website is stored online	**Included** (first year)
Outside services (if needed)	Informed to you first, paid directly by you	As needed

Our Promise to You

There will be no additional charge without discussing it with you first. Any extra work or cost will always be explained and agreed with you before we start.

1 Business Website ₹15,000

The website price of **₹15,000** is confirmed for the finalised pages below. The website will be **responsive**, which means it will display and work properly on mobile phones, tablets and desktop computers.

1. Home	The first page visitors see, with an introduction to your company
2. About Us	Your story and what makes you special
3. Founders	Profiles of the founders of the company
4. Services	The event services you offer, each shown with images
5. Artists	Showcase of the artists you work with, with their images
6. Portfolio	Photo showcase of your work across different types of events, such as destination weddings and more
7. Events	Details of the events you organise
8. Testimonials	Client feedback with client images, plus customer reviews from your online business listing
9. Event Locations Map	A map with pins at the places where you have organised events. When a visitor clicks a pin, they see photos of that event
10. Blogs	News and updates section (see section 3 about managing blogs)
11. FAQ	Answers to the questions customers ask most often
12. Contact Us	Contact details, links to your social media handles and a WhatsApp chat link
13. Enquiry Form	A form for customers to send their event requirements to you

Enquiry form will collect

Name • Phone number • Email • Event type • Event date • City • Budget • Service requirements (the services needed at the event)

If you later want additional pages or features beyond this list, we will first discuss the requirement and its cost with you before starting that work.

2 Website Analytics Setup ₹3,000

In simple words: analytics tells you how many people visit your website, which pages they look at, where they come from (search engines, social media, etc.) and which city they are in.

For **₹3,000** we will:

- Add the tracking to your website so that your visitors are counted
- Set up the analytics so that your visitor numbers are recorded and available as reports

Showing these visitor numbers inside your admin dashboard is part of the admin dashboard quotation and will be priced there, when the dashboard is built.

3 Admin Dashboard — Separate quotation

In simple words: the admin dashboard is a private, password-protected area where your team can manage parts of the website and, over time, other parts of your business.

> **Please note**
>
> The **admin dashboard is charged separately** and its details and pricing will be shared in a separate Admin Dashboard quotation. The price in this quotation for the **Blogs** section (and posts) covers building that module on the website. It does **not** include building the dashboard that is used to write and manage the blogs. That dashboard work will be described in the separate quotation.

4 Website Content

What we do: while building your website, we will use **sample (mock) text and images** as placeholders, so that you can see how the final website will look and work.

What you provide: the **final content** must be given by you. This includes final text, the images for services and artists, portfolio and event photos (including photos for the map pins), founder details, testimonials with client images, FAQs, your logo and social media links. We will also need **access to your online business listing**, so that your customer reviews can be shown on the website. We will replace the sample content with your final content before the website is published.

5 Updating Website Content

- **Before the admin dashboard is ready:** we (the developers) will be responsible for updating the content on the website for you.
- **After the admin dashboard is ready:** only the things supported by the dashboard modules can be updated by your team from the dashboard.
- **Things the dashboard cannot update** will still be updated by us. Depending on the change, it will be treated either as **maintenance** or as **new development**. We will tell you which one it is, and discuss any cost with you, before we start.

6 Search Engine (SEO) Setup — Included

In simple words: SEO means setting up your website so that search engines can understand it and show it when people search for event organisers. Basic SEO is included:

- A clear website structure that search engines can easily read
- A clear title and short description for each page, so people know what they will find in search results
- Clearly organised page headings and descriptions for your images, so search engines understand your content
- A list of all your pages given to search engines, so that none of them are missed
- Basic speed improvements so that your pages load quickly

Not included: ongoing SEO work such as regular content writing, keyword research, advertising or promotion.

7 Website Delivery Time — About 2 weeks

The first version of your website will be ready in approximately **2 weeks**. This assumes that you provide the required content, images and logo on time and share your feedback during development.

8 Changes After the First Version — Up to 5 included

After the first version is published, **up to 5 small changes** are included at no extra cost, such as:

- Changing text
- Replacing an image
- Small layout adjustments
- Minor corrections

If you later want to add a new page, introduce a new feature or make a major change to the agreed design, we will first discuss the requirement and any extra cost with you before we begin.

9 Support After Launch — 30 days free

For **30 days after your website is published**, any issue or error related to the work delivered under the agreed website scope will be fixed **free of charge**. New features, new pages or changes in requirements during this period will be discussed separately.

10 Domain, Hosting & Outside Services

Domain (your website address): You have already purchased your domain, and we will connect it to the new website. Renewal of the domain is paid by you directly to your domain provider.

Hosting (where your website is stored online): Hosting is the space on the internet where your website is stored, so that people can visit it at any time. Hosting is **included in the ₹15,000 for the first year**. After the first year it will be paid, and the amount will be decided based on your website's traffic and resource usage at that time. We will tell you the amount before it is due.

Outside services: some features, such as showing customer reviews and the event locations map, use services from other companies. Your ₹15,000 covers the normal amount of visitors and usage for a business website. If at any time you need extra resources, or your website traffic grows beyond that, we will **inform you of the updated charges first, before making any change**, and these charges will be **paid directly by you**.

If you need a paid service from another company that we do not provide, you will pay that company directly. We will inform you before using any such service.

Ownership: You own your domain name and all the content on your website.

11 Privacy & Legal Pages

Since your enquiry form collects customers' details, the website's privacy policy and related legal pages will be prepared following the applicable government laws and norms.

12 Payment Terms

50% Advance	Paid before we start the work
50% Balance	Paid before the final website is published

These payment terms apply to the website and any add-on services agreed with you.

13 How We Will Work Together

The project will be completed in clear stages:

Step 1	**Pages Finalised ✓ Done** The website pages have been discussed and confirmed with you.
Step 2	**Website Price Confirmed ✓ Done** The website price is confirmed at ₹15,000 for the finalised pages.
Step 3	**Build with Sample Content** We build the website using sample text and images, so you can review the look and flow. This takes about 2 weeks.
Step 4	**Final Content & Publish** You share the final content. We add it, and the website is published after the balance 50% payment.
Step 5	**Admin Dashboard** Planned separately. Each dashboard feature is discussed and priced before work begins.

CURRENT PRICING SUMMARY

Business Website	₹15,000
Analytics Setup	₹3,000
Website + Analytics Setup Total	**₹18,000**
Admin Dashboard	Separate quotation (includes analytics view in the dashboard)
Included at no extra cost	Basic SEO, 30 days post-launch support, hosting for the first year
Outside services (if needed)	Informed first, paid directly by you
Payment	50% advance, 50% before final publish

Please Note

This quotation is based on the pages and requirements finalised with you. Any change in pages or features will be discussed first. **There will be no additional charge without discussing it with you first.** All additional work or costs will always be discussed and agreed upon before the work is started.

What Has Changed Since Revision 1

This page compares **Revision 2** (8 October 2026) with **Revision 1** (30 September 2026), so both sides can easily track what is different.

Area	Revision 1	Revision 2
Website pages	General list of sections (Home, About, Services, Events, Client Info, Blog, Contact)	13 finalised pages, listed in section 1
New pages / sections	-	Founders, Artists, FAQ, Event Locations Map, customer reviews, Enquiry Form with fields
Portfolio & Testimonials	Events / Work Showcase and Client Information	Portfolio for multiple event types; Testimonials with client images
Website price	Starting from ₹15,000, to be confirmed after pages are agreed	**₹15,000 confirmed** for the finalised pages
Analytics	Not included	**New:** ₹3,000 for tracking and analytics setup. Showing it in the dashboard is priced in the dashboard quotation
Admin Dashboard	Starting from ₹2,000, with features added later	Moved to a **separate quotation**. Blog price here covers the website module only
Hosting	Separate, based on requirement	**Included** in ₹15,000 for the first year; after that, paid based on traffic and usage
Outside services	Not mentioned	**New:** extra charges are informed first and paid directly by you
Ownership	Not mentioned	**New:** you own your domain and website content
Delivery time	1.5 - 2 weeks	About 2 weeks
Payment terms	Not mentioned	**New:** 50% advance, 50% before final publish
Content & updates	Content to be provided on time	**New:** sample content during build; final content from you; how updates work (sections 4 and 5)
Responsive design	Not mentioned	**New:** works on mobile, tablet and desktop
Privacy & legal	Not mentioned	**New:** prepared as per government laws and norms
SEO list	Included, with setup help for the search engine reporting tool	Still included; list simplified and the reporting tool help is no longer listed
Unchanged	5 small changes, 30 days support, domain connection	Same as before
